

Our school offers many activities and projects to develop students' learning in an international dimension and to enable students to come into contact with different viewpoints and ways of life. The Italian Ministry of Education has recognized it as:

- School for the European dimension of Education
- European Label for foreign languages
- E-Quality Label
- School of Quality

Moreover, our school is a member of the Pasch network (cooperative e-learning) and official centre for the German 'Sprachdiplom'. Our aim for the future is to broaden the scope of our contacts with foreign partners.
